ABSTRACT

Intended for young children just becoming familiar with computers, this naming book introduces and reinforces new computer vocabulary and concepts. The 20 words are presented alphabetically, along with illustrations, providing room for different activities in which children can match and name the pictures and words. The 20 vocabulary items are cartridge, computer, cursor, disk, disk drive, graphics, hardware, joystick, keyboard, keys, light pen, microchip, modem, printer, printout, screen, software, tape, tape recorder, and user. A Beginning Note

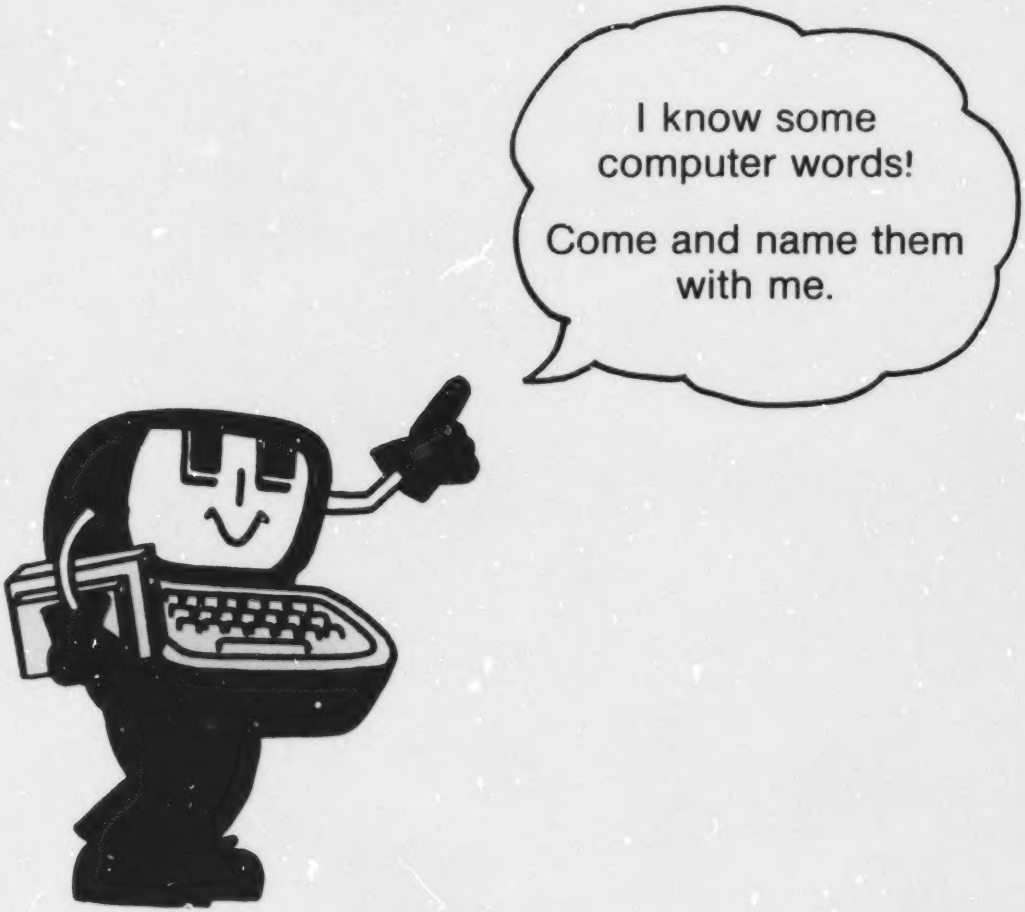
Young children encounter computers more and more these days: on shopping trips, in their homes, at their parent's workplace and in school. During their early stages of computer literacy, children benefit from books which introduce and reinforce new vocabulary and concepts.

Chippy's Computer Words is a naming book in which twenty words from the world of computers are presented alphabetically, along with illustrations. There is lots of room for different activities in which children can match and name the pictures and words.

The new vocabulary presented here is an extension of the first book of this series, *Chippy's Computer Numbers*. For more detailed definitions, *The Primary Computer Dictionary* is an excellent resource for youngsters and the adults working with them.



I know some computer words!
Come and name them with me.

Kevin Hayes

Kathi *Suzanne* *Melanie*

Suzanne Girard and Kathlene R. Willing are both teachers in Toronto. At their learning centre, Education In Progress, they have taught hundreds of children all about computers.

As the authors of both the *Primary* and *Junior Computer Dictionaries*, they continue to write books and articles on the subject.

When not teaching or writing, you're apt to find Kathlene off to the theatre and Suzanne off to a craft show.

Melanie Hayes has worked with Suzanne and Kathlene on their series of computer books since they began. A graduate of the Ontario College of Art, her interests include commercial art, portraiture and fashion illustration.
